Gentlemen:

This is to commend you for the manner in which you handled our Structured Cabling project requirements which led to a successful staff co-location and system migration for DHL Global Forwarding (Philippines), Inc.

With the tight deadlines, dependencies with other suppliers/providers, not to mention the fact that we maintained "Business As Usual" environment while work is being done in the background shows that your first concern is to provide good service and the welfare of our organization.

As a consumer and a service provider ourselves, we would like to express our appreciation for your integrity and dependability and once again commend you for the fine manner in which you handled this project.

Sincerely,
